

## Wee1 Polyclonal Antibody

<b>Catalogue No*:</b>	AB0078-200	<b>Price/Unit*:</b>	300.00
<b>Source:</b>	3	<b>Quantity/unit size*:</b>	600 g
<b>Description:</b>	Goat polyclonal antibody to Wee1. It is a large 1,525-residue tyrosine kinase protein essential in <i>Ustilago maydis</i> . <b>Alternative names:</b> um06337 protein antibody.		
<b>Immunogen:</b>	Purified recombinant peptide derived from within residues 1,440 aa to C-terminus of <i>Ustilago maydis</i> Wee1 produced in <i>E. coli</i> .		
<b>Specificity:</b>	Detects the immunogen by Western blot.		
<b>Reactivity:</b>	Reacts against <i>Ustilago maydis</i> and other related species.		
<b>Usage:</b>	Western blot 1:500-1:2,000 Immunofluorescence ND Immunohistochemistry (paraffin) ND Immunohistochemistry (frozen) ND		

### Reactivity Chart

Sample	Western Blot	Immuno-fluorescence	Immuno-Histochemistry (p)	Immuno-Histochemistry (f)
Ustilago maydis	+++	ND	ND	ND

<b>Storage:</b>	Store at -20 C for long-term storage. Store at 2-8 C for up to one month.
<b>Special instructions:</b>	Avoid freeze/thaw cycles.
<b>References:</b>	For research use only, not for diagnostic use
